Test Suite	Specific Test	Access Control	Code Injection	Fileless Execution	Fork Bomb	Information Leakage	Memory Corruption	Race Condition	Reconnaissance	Reverse Shell	Signal Handler
Execution Backdoor	[S1]Execute a safe command		TN								
	[S2]Redirect stdout to a log file									TN	
	[M1]Command Injection		TP								
	[M2]Fileless Execution			TP							
	[M3]Reverse Shell									TP	
Memory Resource	[S1]MPROTECT to read-only						TN				
	[S2]Create limited child processes				TN						
	[M1]MPROTECT to executable						FN				
	[M2]Data Exfiltration					FN					
	[M3]Abnormal Signal Handling										FN
Recon Privesc	[S1]Reading non-sensitive procfs file								TN		
	[S2]SETUID to a non-root user	TN									
	[M1]Reading /proc/self/maps								FN		
	[M2]Path Traversal	TP									
	[M3]READ /etc/shadow	TP									
	[M4]WRITE /etc/passwd	TP									
	[M5]SETUID to a root user	TP									
	[M6]Attaching to Child Process		FN
